

Dam Removal Montenegro

Dam Removal Europe International Seminar
19th – 21st May 2022

Branka Španiček, WWF Adria

Agenda

- Introduction
- How we made it happen!
- Lessons learnt
- Q&A

Introduction

- Rivers in MNE managed in 2 ways
- 3 barriers on 14 km long Vezišnica River
- Illegally built in 2013 by a private person
- Purpose: to divert the water in the planned fish ponds

How we made it happen! (1)

- 2 main pillars of the implementation of DR/Free-flowing Rivers Initiative: (i) lobbying and (ii) field work
- Excellent support and collaboration with the Eco-Team NGO

How we made it happen! (2)

- Financial support secured (with the help of WWF NL & TNC)
- 3 dams on the Vezišnica River removed in Oct 2021
- DR work on Vezišnica River lasted 9 months

Lessons learnt

1. When there is will and support, there is also a way to implement dam removal
2. Clear communication with the local community and everybody involved is a key
3. Understanding of benefits that DR creates is important
4. Dam removal – great communication and community engagement potential

Offering the best price-performance ratio value in the market

RIJEKA VEZIŠNICA EKOLOGIJA

CRNA GORA

Prvo uklanjanje pregrada iz rijeka u regiji: Vezišnica ponovno slobodna!

Ovaj je događaj tim važniji ako znamo da je ovo prvo takvo uklanjanje pregrada u regiji.

ZAŠTITA RIJEKA

Uklanjanjem pregrada Vezišnica u Crnoj Gori postala je rijeka slobodnog toka

Europski parlament traži da se u plan za obnovu prirode uključi vraćanje najmanje 25.000 km rijeka u prirodno stanje vodotoka u EU-u
