

SNAKE RIVER DAM REMOVAL

The Largest River Restoration in History

American Rivers
RIVERS CONNECT US®

The Snake River is the Columbia River's largest and most important tributary.

The Four Lower Snake Dams:

- Lower Granite
- Little Goose
- Lower Monument
- Ice Harbor

“The Pacific **Northwest** is simply this: wherever the **salmon** can get to. Rivers without **salmon** have lost the life source of the area.”

~Tim Egan

Bonneville, the Northwest's biggest clean-power supplier, faces promise and perils in changing energy markets

\$9 Billion spent on fish and wildlife mitigation

“

We need to stop thinking about what currently exists and ask ourselves, ‘What do we want the Northwest to look like in 10, 20, 30, 40, 50 years?’

Rep. Mike Simpson (R-ID)

ELEMENTS OF A FEDERAL LEGISLATIVE DEAL

- **Energy modernization**
- **Infrastructure investments**
- **Irrigation**
- **Dam removal**

Columbia Basin Tribes Gather in Support of
Columbia Basin Initiative Proposed by
Congressman Simpson

Pendleton, Oregon- "Creator, I ask that you make
our hearts big- so we can be strong as a people."
were the opening sentiments as the Columbia
Basin Tribes met today to discuss the health and
survival of the Basin and salmon populations in the
northwest. "That's our wealth; the health of our
envir... [See More](#)
